

NALOXONE

Naloxone is the opioid overdose reversal drug.

It appears under various brand names, including Narcan, Evizo and many others.

It can be administered in a variety of methods, including nasally (through the mucus membrane), intramuscularly using auto-injectors or syringes.

You can procure Naloxone at any pharmacy without a prescription.

In Case of Overdose:
Call 911

Administer Naloxone

Hope for Healing Hearts

Are you or someone you love
struggling with drug or alcohol
substance use disorder?

Please know that there is help
available! You needn't suffer
alone!

Since 2015, Not One More has
supported persons with
substance use disorders and
their loved ones through the
difficult and rewarding journey
that is recovery from substance
use disorders.

Grief Group

Join us on the first Tuesday of
every month as we work
through the grief of losing
someone close to us,
together.

You needn't be alone
anymore, join us in an
environment that is
welcoming, non judgemental,
and confidential.

At Not One More, we want to
work towards a day when
there is not one more
overdose, lost spirit, or
grieving heart.

Together we can.
